The 12th China Hydrological Technology and Equipment Exhibition 2020

August 19-21, 2020,

China-Shanghai Convention & Exhibition Center of International Sourcing

Invitation

Hosted by: Chinese Meteorological Society (CMS)

Co-hosted by: Shanghai Hydrological Association

Chinese Meteorological Society Hydrometeorological Committee

Shanghai Meteorological Society

The Association of Hydro-Meteorological Equipment Industry(HMEI)

Organized by: Minsheng Exhibition (Shanghai) Co.,Ltd

Official Website: www.grfexpo.com

Exhibition Review:

The China hydrological technology and equipment exhibition hosted by the Chinese meteorological society <CMS>, co hosted by Shanghai hydrological association, the association of hydro-meteorological equipment industry(HMEI), the Chinese meteorological society hydrometeorological committee, and supported by various domestic and international organizations. It has been held for 11 years and has achieved great success. It is the only national-level professional exhibition in China and has become the largest hydrological professional exhibition in Asia. In addition to Chinese users, buyers and distributors in Malaysia, Vietnam, Japan, Singapore, Indonesia, South Korea and the Middle East also made a special trip to China to visit our show.

Exhibition Profile:

China owns a lot of rivers, leading to extremely heavy monitoring tasks of hydrology and water quality. Along with the rapid development of urbanization in China, problems such as poor quality of water environment, serious ecological damage and environmental risks of water become urgent. For constantly accelerating completion of hydrology and water quality monitoring system construction, further exploring the new methods of ecological restoration of water environment, exchanging advanced experiences among various provinces and regions, effectively improving understanding of majority of water conservancy practitioners about new technology, new knowledge, and preferably promoting application of new instruments and equipment in hydrology and water quality monitoring and ecological restoration of water environment, the 12th China hydrological technology and equipment exhibition, hereinafter referred to as "GRF EXPO 2020", organized by

Minsheng Exhibition (Shanghai) Co., Ltd. will be held from August 19-21, 2020, at Shanghai International Purchasing Convention and Exhibition Center in China. On the occasion, exhibitors from a variety of countries and regions will exhibit their latest technology and equipment, to discuss the most frontier development and marketing trend.

Preparation work of GRF EXPO 2020 have been fully launched. It is our pleasure to invite all of you to exhibit or visit our show, expect to meet you on "GRF EXPO 2020"!

Time Schedule

Exhibition time: August 19-21, 2020,

Exhibitor profile:

Hydrological technology and equipment exhibition area:

water quality monitoring equipment, hydrologic monitoring instruments, river forecasting, on-line monitoring technology and equipment, automatic hydrological station equipment, automatic recording, surveying and mapping equipment, GPS, GRS and GIS technology and equipment, etc.;

Hydrology information application exhibition area:

Related systems: water resources management software, flood control and drought resisting information management system, mountain flood disaster monitoring and early warning system

Monitoring center: center server, external network fixed IP, information management system software for hydrological water resources management;

Communication network: communication network platform based on mobile or telecom, Beidou satellite;

Telemetry terminal: hydrological water resources telemetry terminal RTU;

Measuring instruments: water level meter, rainfall sensor, camera;

Power supply mode: electric supply, solar power supply, battery power supply.

Hydrological analysis instruments and consumables exhibition area: related analytical instruments, equipment, consumables, etc.

■ Charge of Booth:

Participation	Size	Price
Shell scheme	3m × 3m	4,000 US Dollars/per
Corner Booth	3m × 3m	4,500 US Dollars/per
Raw Space	MOQ is 36 m ²	400 US Dollars/m ²

Description of Booth:

A shell scheme includes: fascia board written in Chinese and English, two illumination lamps, white wall (The height is 250cm with accessible height of 246cm), a round table, two chairs, a power socket compatible with 400W/220V and carpet;

Exhibitor who order raw space should pay the expense required in booth construction.

Cover	Inside Front Cover	Inside Back Cover	Back cover	Title page	Color Inside page	Text brief
30000 yuan	18000 yuan	15000 yuan	26000 yuan	18000 yuan	10000 yuan	3000 yuan

Note: catalogue layout specifications (210 mm× 285 mm), imports of coated paper, four-color utility precision printing, page content shall be designed by the exhibitors.

■ Exclusive Sponsorship:

Item	Visit Voucher	Visit Pass	Tote bag	Lanyard	Gala Dinner
Number	10,000	exclusive	exclusive	exclusive	exclusive
Price	15000 yuan	30000 yuan	50000 yuan	30000 yuan	200000 yuan

■ Technical seminar:

Price: 5,000 Dollars/30 minutes ,includes a conference room which can accommodate about 120 people, a projector, display, platform, chairs, speakers, paper, pens, drink water and publicity before exhibition.

Notices:

Exhibitors shall complete the application form/ agreement, stamp it and email to the organizer.

Exhibitors shall remit the expenses involved to the account designated by the committee within 7 working days upon signing up;

The arrangement of booth is prioritized by exhibitors who sign up, make payment firstly. The committee has the right to adjust a small number of booths;

The transportation of exhibited goods, reception and accommodation will be described in the Exhibitor Manual by the committee three months before the exhibition.
